Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

1.8 Earnings Per Share

Basic earnings per share will be calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividends and taxes) by the average number of equity shares outstanding during the year. Presently, the company is not generating any revenues.

Tax expenses for the year comprise current tax and deferred tax liability. Current tax is calculated in accordance with the provisions of section 115BAA of Income tax Act, 1961, where the income tax is calculated at the rate of 22% (Plus 10% Surcharges and 4 % education cess.) of the taxable income by filling appropriate form 10 IC under Income Tax Act, 1961.

1.10 Impairment of Assets:

The Company assess at each Balance Sheet date whether there is any indication that any of the assets may be impaired. If any such indication exists, the Company estimates the recoverable emount of the asset. If such recoverable amount is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment los and is recognized in the profit and loss account. As on the Balance Sheet date the Company assessed for impairment of assets and found no indication of impairment of assets as per Accounting Standard (AS-20).

1.11 Provisions and Contingencies

The company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made No contingent liabilities/assets estimated as on the balance sheet date.

certingent liabilities are not recognized and, if any, are adequately disclosed in the notes to accounts.

1.11 Cost Recharge:

The advances relating to their sister concern for furtherance of the business and accordingly the works were being executed by the sister concerns and company has charged the cost on those funds which are not utilized by the sister concerns on the assigned work as the same is interest buring funds and vice versa in case of advances received by the Company.

Thus the company has charged cost of reimbursement on those unutilized advances in the execution of project works which compensate the excessive cost incurred by the company during the financial year against that of the revenue.

Since this arrangement is of the nature of reimbursement of the cost incurred by the company hence no Taxes are withheld in the form of Tax deducted at source by the sister concerns and thereby the company has maintained the accounting concept of appropriation of cost upon utilization of the sources in the business.
